

Dynalogic 5: the intelligent controller for high-speed doors

Be ready for the industry of the future

Your best asset
to ensure
maximal data

- Fastest possible cycle time of the door.
- Optimized operation according to your requirements.
- Easy management.

CONTINUOUS OPERATION

- Avoid downtime of your door:
- Clear error messages help prevent unnecessary service calls
 - Early warnings avoid breakdown of the door
 - Suggestions for proactive actions based on data records

EFFICIENT FACTORY FLOW

- Optimize the integration of your door into your internal processes:
- Flexible opening height and opening time, high-speed option
 - Preprogrammed possibility to connect traffic lights and flashing lights
 - Intelligent bottom detection, avoiding the door hitting an object

TRACEABILITY

- Know what happens with your doors:
- 100 latest events visible on the screen
 - All events logged on a USB-stick
 - Analysing tool available

ADAPTABILITY

- Avoid high development costs:
- Standard industrial components, fully tested
 - Dynaco internal software development, easy to adjust to the needs of the market

EFFICIENT FIRST-LINE TROUBLESHOOTING

- Let the touchscreen guide you step-by-step:
- Basic helpline without manual
 - Clear text, no codes
 - Records can be transferred to your service partner

CONNECTIVITY

- Facilitate the integration of your doors:
- Interlock doors through a network cable
 - Connect to the Dynaco door management system (ADM or Advanced Door Management)
